BLOOD VESSEL MODELS

	Vessel Diameter	Number of Vessels	Cost
WLAV_0.5	0.5mm	5 Vessels	\$245
WLAV_0.7	0.7mm		\$200
WLAV_1	1mm		\$140
WLAV_1.5	1.5mm		\$140
WLAV_2	2mm		\$140

WetLab Blood vessel models are the ideal way to practice vascular anastomosis outside the OR.

Made from PVA (polyvinyl alcohol), they display the same elasticity as living tissue.

Unlike chicken or rat models set up and cleanup is quick and simple giving users flexibility to spend more time practicing the fundamentals of completing a patent anastomosis.
